

Silicon Valley of Robotics

Join the leading innovation hub for Autonomous Systems

Top 5 reasons why Greater Zurich is ideal for Autonomous Systems companies

1. World-class R&D with a rich network of international players
2. Leading innovation hub worldwide, fuelled by frequent and successful industry collaborations
3. Favorable regulations and business-friendly framework, offering an ideal and unique to Europe test-environment
4. Top talent availability and retention with a highly skilled local workforce
5. Pioneering spinoffs and cutting-edge startup landscape

Robotics

Swiss universities are at the forefront of global robotics & drone research. This is why international tech giants such as Disney, Google, and Meta set up their R&D centers in Greater Zurich to battle for the best talent.

Drone technology

World-leading labs develop technologies and algorithms that are used to push the limits of dynamic systems and controls. Flying and testing drones is enabled by favorable regulations.

Computer vision

As a cross-sectional technology, computer vision benefits from related technologies and its pioneering research conducted in the Greater Zurich Area: Information & sensor technologies, electrical engineering, AR/MR, or AI

Favorable regulations

Ideal test environment for drone innovations

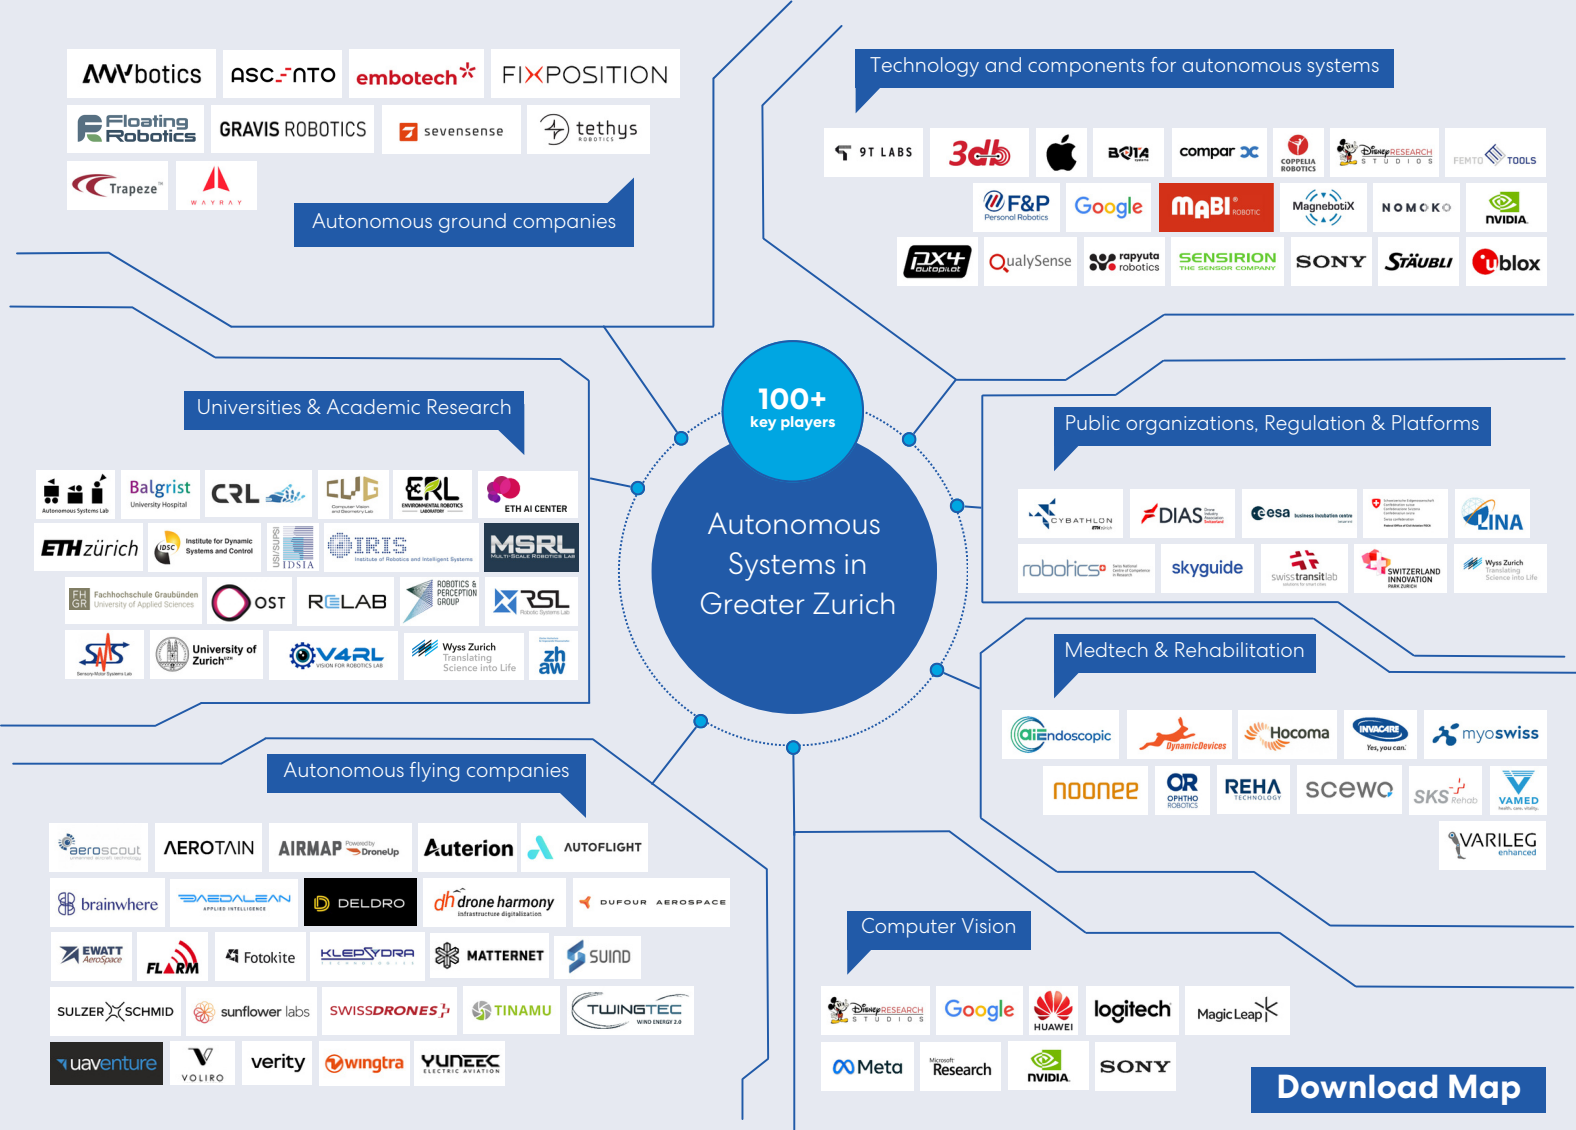

Pioneering drone traffic management in harmony with EU safety standards

Innovation-friendly & accessible authorities allow flexible adaptation to new technologies

Matternet runs the world's longest urban drone delivery route in Zurich
